Item 1. Subject Company and Class of Security Subject to the Tender Offer

(a) The subject company is FILINVEST LAND, INC. ("FLI" or the "Company"), a corporation organized and existing under the laws of the Republic of the Philippines, with principal office address at Filinvest Building, 79 EDSA, Highway Hills, Mandaluyong City 1550, Metro Manila, Philippines.

FLI is primarily organized for the purpose of acquiring by purchase, lease, donation or otherwise, and owning, using, improving, developing, subdividing, selling, mortgaging, exchange, lease, developing and holding for investment or otherwise dealing in real estate of all kinds, nature and purpose and/or any interest or right therein, whether improved or not, managing, dealing in, or otherwise disposing of buildings, houses, apartments and other structures and immovables of whatever kind, together with their appurtenances.

(b) As of the date of this Tender Offer Report, FLI has an authorized capital stock of Thirty-Three Billion Eighty Million Pesos (Php33,080,000,000.00) divided into (i) Thirty-Three Billion (33,000,000,000) common shares with a par value of One Peso (Php1.00) each and (ii) Eight Billion (8,000,000,000) voting, cumulative, and non-redeemable preferred shares with a par value of One Centavo (Php0.01) each.

As of the date of this Tender Offer Report, out of the authorized capital stock of FLI, Twenty-Four Billion Two Hundred Forty-Nine Million Seven Hundred Fifty-Nine Thousand Five Hundred Six (24,249,759,506) shares of common stock are outstanding.

FLI intends to acquire up to One Billion Eight Hundred Sixty-Six Million (1,866,000,000) common shares, representing approximately Seven and 69/100 percent (7.69%) of the total outstanding shares of FLI (the "Tender Shares") through a voluntary tender offer ("Tender Offer"), as approved by the Board of Directors on 25 September 2024. The Tender Offer shall be subject to the terms and conditions of the Tender Offer, incorporated herein as Exhibit "A" and made an integral part hereof ("Terms of the Tender Offer").

FLI shall pay for the Tender Shares duly tendered by the tendering FLI shareholders ("Tendering Shareholders") using shares owned by FLI in Filinvest REIT Corp. ("FILRT") as consideration (the "Consideration Shares"), at an exchange ratio of 0.32 Consideration Shares for every Tender Share. Up to 597,120,000 FILRT Shares are required to pay for the full purchase of the Tender Shares. FLI confirms it has sufficient FILRT shares to satisfy the Consideration Shares required to accept and pay in full all of the Tender Shares and unrestricted retained earnings to cover the total value of the Tender Offer. A copy of the certification of FLI is attached herein as Exhibit "B".

FTI Consulting Philippines, Inc. ("FTI") was engaged by FLI to act as the independent financial advisor ("IFA") in relation to the valuation of the Tender Shares and Consideration Shares. FTI, as the IFA, assessed the fairness of the exchange ratio by conducting its own valuation of the shares involved, determining a fair range of values for each and then estimating the corresponding exchange ratio. The valuation of FLI and FILRT, as a going concern, is as of 30 June 2024 ("Valuation Date"). A copy of the Fairness Opinion and Valuation Report of the IFA, as approved by the Board of Directors on 25 September 2024, is attached herein as Exhibit "C".

FTI opined on 24 September 2024 that, given the range of market values of the Tender Shares and the range of market values of the Consideration Shares, the exchange ratio of Tender Shares to be acquired per Consideration Share is considered fair from a financial point of view.

FTI made use of, among others, (i) information provided by FLI and FILRT; and (ii) information from third-party sources including but not limited Bloomberg, S&P Capital IQ, Kroll, and Aswath Damodaran. The valuation methodologies used by FTI in establishing the fair range of values included, among others, Income Approach: Discounted Cash Flows Method, Income

Subject to taxes and other expenses in relation to the conveyance of the Tender Shares to FLI. SEC Form 19-1

Approach: Dividend Discount Model, Market Approach: Comparable Companies Method, and Market Approach: Volume Weighted Average Prices.

(c) The principal market for the shares is The Philippine Stock Exchange, Inc. (the "PSE"). The high and low prices of the Tender Shares traded on the PSE for each quarterly period during the past two (2) years are as follows:

Year	First Quarter		Second Quarter		Third Quarter		Fourth Quarter

During the last five (5) years, no executive officer nor director of FLI, nor any person controlling FLI, nor any executive officer or director of any corporation ultimately in control of FLI, has been convicted in any criminal proceeding or was a party to any civil proceedings of a judicial or administrative body of competent jurisdiction, domestic or foreign.

Item 3. Purpose of the Tender Offer and Plans or Proposals

The purpose of this Tender Offer by FLI is to allow for a reacquisition of outstanding FLI shares ("Share Buyback"), which will result in additional treasury shares for FLI. While the dividend policy is expected to remain stable, there may be a slight adjustment in dividend rates after the Share Buyback due to changes in share ownership; however, no material change is anticipated. The resulting treasury shares may be reissued in the future to raise capital, providing FLI with additional financial flexibility.

The Tender Offer is not expected to result in any material changes to FLI's corporate structure or business operations. As to ownership structure, FLI's public ownership will be reduced by the number of Tender Shares accepted by FLI, which Tender Shares will become treasury shares. On the other hand, the Tender Offer will result in an increase in FILRT's public ownership by the number of Consideration Shares exchanged by FLI for the Tender Shares, which will create room for future asset infusions into FILRT, furthering its growth while complying with minimum public ownership requirements for real estate investment trusts. Following the Tender Offer, the total outstanding shares of FLI will remain above the minimum public ownership requirement applicable to FLI, thereby maintaining compliance with existing listing rules.

The Tender Offer will not have any material adverse effect on the business, operations, assets liabilities, or condition (financial or otherwise) of the Company.

From the perspective of the FLI shareholders, the Tender Offer provides an attractive exit opportunity at a premium to the current market price. Shareholders also have the opportunity to exchange their FLI shares for FILRT shares, which offer several attractive benefits, including a more stable dividend yield and improved liquidity due to historically higher trading volumes compared to FLI shares. This exchange will not only enhance shareholder value but also align interests between FLI and FILRT shareholders, positioning both entities for future growth opportunities.

In summary, this Tender Offer serves multiple strategic purposes aimed at enhancing shareholder value and positioning both FLI and FILRT for future growth, while ensuring compliance with regulatory requirements.

Re: Fairness Opinion Report

Ladies and Gentlemen:

FTI Consulting Philippines, Inc. ("FTI Consulting") is pleased to submit this Fairness Opinion Report ("Report") covering the share-for-share swap transaction between Filinvest Land, Inc. ("FLI" or the "Client") and its shareholders, wherein FLI will offer to exchange its shares in Filinvest REIT Corp. ("FILRT") with FLI shares held by FLI shareholders.

In this regard, FTI Consulting has been asked to render an opinion on whether the proposed exchange of FLI shares for the FILRT shares is fair from a financial point of view.

FTI Consulting conducted a valuation study of the FLI shares and FILRT shares in accordance with the International Valuation Standards ("IVS") to determine the fairness of the consideration to be transferred and consideration to be received by both parties. The following standards were used:

- IVS 101 Scope of Work
- IVS 102 Investigations and Compliance
- IVS 103 Reporting
- IVS 104 Bases of Value

- IVS 105 Valuation Approaches and Methods
- IVS 200 Business and Business Interests
- IVS 400 Real Property Interests*

The Valuation Date is 30 June 2024, with the Philippine Peso ("PHP") as the Valuation Currency. Market Value (also referred to as "Fair Value") is the basis of value used in this engagement. Market Value is defined in the IVS as the estimated amount for which an asset or liability should exchange on the Valuation Date between a willing buyer and a willing seller in an arm's length transaction, after proper marketing and where the parties had each acted knowledgeably, prudently, and without compulsion.

The Philippine Stock Exchange, Inc.'s ("PSE") Memorandum on Guidelines for Fairness Opinions and Valuation Reports (No. 2011-0104, amended No. 2024-0019) requires a fairness opinion covering the property-for-share swap transactions. Such fairness opinion must be supported by a valuation report.

FTI Consulting is an independent firm accredited by the PSE (PSE Accreditation CN 2023-0073 released on December 29, 2023) for purposes of issuing fairness opinions and valuation reports of listed companies and prospective initial listing applicants of the Exchange in compliance with the PSE Memorandum on Guidelines for Fairness Opinions and Valuation Reports (No. 2011-0104). FTI Consulting is also accredited by the Securities and Exchange Commission (SEC Accreditation No. 032) as a Professional Services Organization (PSO) in accordance with SEC Memorandum No. 2 Series of 2014 (Guideline on Asset Valuation).

Summary of Findings

Valuation of FLI Shares

FLI was valued using the Sum-of-the-Parts ("SOTP") Method under the Cost Approach, with segments valued using the Discounted Cash Flows ("DCF") Method under the Income Approach. To cross-check this methodology, we calculated and compared the implied EV-to-EBITDA multiple with comparable companies, and compared the estimated value per share with the volume-weighted average prices ("VWAPs"). Based upon discussions with and representations of FLI's management, research conducted, and the valuation analyses performed, the estimated valuation range of FLI as of the Valuation Date is from PHP20,650.70 million to PHP33,088.31 million or PHP0.85 to PHP1.36 per share.

Valuation of FILRT Shares

FILRT was valued using the DCF Method under the Income Approach. To cross-check this methodology, we utilized the Dividend Discount Model ("DDM") under the Income Approach, and compared the estimated value per share with the VWAPs. Based upon discussions with and representations of FILRT's management, research conducted, and the valuation analyses performed, the estimated valuation range of FILRT as of the Valuation Date is from PHP12,454.68 million to PHP19,373.08 million or PHP2.55 to PHP3.96 per share.

Fair Range of Exchange Ratios of FLI and FILRT shares to be Exchanged

Given the range of market values of the FLI shares and the range of market values of the FILRT shares, we determined the exchange ratio of FLI shares to be acquired per FILRT share which is considered fair from a financial point of view. This is presented below, along with a comparison with the proposed exchange ratio of FLI shares to be acquired per FILRT share by FLI's management in the Transaction.

FLI (PH	FLI (PHP/share)		HP/share)	Fair Range of Exchange Ratios of FLI shares per FILRT share		Proposed Exchange Ratio of FLI shares per FILRT share
Low Est.	High Est.	Low Est.	High Est.	Low Est.	High Est.	
0.85	1.36	2.55	3.96	1.87	4.65	3.11

Note: The low estimate of the Fair Exchange Ratio is calculated as the low estimate of FILRT's market value divided by the high estimate of FLI's market value. The high estimate of the Fair Exchange Ratio is calculated as the high estimate of FILRT's market value divided by the low estimate of FLI's market value.

Fairness Opinion

Given that the exchange ratio proposed by management falls within our fair range of exchange ratios of FLI shares to be acquired from shareholders per FILRT share, we are of the opinion that the proposed Transaction is <u>fair from a financial point of view</u>.

- The current supply and projected future developments in the real estate market of Metro Manila are as follows:

■ In May 2024, the annual rate of the Construction Materials Retail Price Index ("CMRPI") in the National Capital Region ("NCR") grew to 1.0 percent. This growth is attributed to building inflationary pressure in the construction sector. NCR's average CMRPI for the first four months of 2024 was 1.1 percent, significantly lower than the 4.4 percent average in the previous year.

■ The Philippines attracted US\$8.9 billion in Foreign Direct Investments ("FDIs") during the year 2023, 13.0 percent of which was related to real estate developments.

■ Millennials are driving demand for affordable and lower-mid-income property units. These individuals are drawn by rising purchasing power and the income potential from rentals. Many seek properties with livework-play-shop features and convenient access to public infrastructure.

Market Overview The Office Leasing Sector

Office Leasing in Metro Manila

Metro Manila office transactions reached 240,100 square meters ("sq m") in 1Q24. Bay Area, BGC, and Makati CBD recorded the highest number of transactions:

- Information Technology Business Process Outsourcing ("IT-BPOs") dominated the transaction volume at 53.0 percent followed by Philippine Offshore Gaming Operators ("POGO") transactions at 32.0 percent and corporate occupiers at 15.0 percent.
- The average Vacancy rate in Metro Manila fell to 19.6 percent in 1Q24 from 20.2 percent in 4Q23 due to higher lease volumes and strong take-up of new supply. CBDs continued to record lower than average vacancy rates, with Ortigas CBD recording 17.9 percent, Makati CBD with 15.4 percent, and BGC with 9.1 percent.

Office Leasing in Metro Manila (cont'd)

■ The vacancy levels are projected to reach 22.0 percent, attributed to the anticipated supply pressure in the market. However, demand from the IT-BPM industry is likely to counterbalance this rise in the medium-term.

- In 2023, the REIT sector faced challenges due to high interest rates and decreasing occupancy rates. As a result, many REITs traded below their initial public offering ("IPO") prices.
- Despite a challenging 2023 performance, the outlook for REITs in 2024 appears more positive. Analysts expect REITs to perform better as a more favorable interest rate environment and a buoyant stock market could lead to more REIT IPOs. However, challenges remain, including potential inflation spikes and increasing vacancy rates in the office sector.

To arrive at our estimates of value, we have considered different methodologies under the Income Approach and Market Approach. The succeeding sections discuss the theoretical basis of both approaches as well as the specific methodologies relevant to the analyses performed.

Income Approach

The Income Approach is based on the premise that the value of an asset is the present value of the future earning capacity that is available for distribution to investors in the asset.

The Income Approach should be used as primary basis of valuation under the following circumstances:

- The income-producing ability of the asset is the critical element affecting value from a participant perspective; and/or
- Reasonable projections of the amount and timing of future income are available for the subject asset, but there are few, if any, comparable assets in the market.

Under the Income Approach, the Discounted Cash Flows Method was considered in the valuation analysis.

Discounted Cash Flows Method

This method involves forecasting the asset's appropriate cash flow stream over an appropriate period and discounting the forecasted cash flows back to present value using an appropriate discount rate. This discount rate should consider the time value of money, inflation, and the risk inherent in the ownership of the asset being valued.

Free Cash Flows to the Firm

Free Cash Flows to the Firm ("FCFF") represents the cash flows available for distribution to the capital holders of the asset after all operating expenses have been paid and all necessary investments in working capital and fixed assets have been made, as shown below:

FCFF = EBIT x (1 - Tax rate) + Noncash Charges - FCInv - WCInv

where: *EBIT* = Earnings before interest and taxes

Noncash Charges = Depreciation and amortization

FCInv = Fixed capital investments

WCInv = Working capital investments

FCFF are discounted using the weighted average cost of capital ("WACC"). WACC is computed by multiplying the weights of debt and equity in the company's financing by the after-tax costs of debt and equity, respectively. The formula for the calculation of WACC is presented below:

 $WACC = W_d K_d (1 - Tax Rate) + W_e K_e$

where: W_d = Weight of debt

 W_e = Weight of equity K_d = Pre-tax cost of debt

 K_e = Cost of equity

The pre-tax cost of debt is computed using the build-up approach by adding the risk-free rate and an assumed margin.

The cost of equity, on the other hand, is computed using the Capital Asset Pricing Model ("CAPM"). CAPM is calculated as follows:

$$K_{e} = R_{f} + \beta_{L} \times MRP + \alpha$$

where: $R_f = \text{Risk-free rate}$

 β_L = Levered beta

MRP = Market risk premium

 α = Alpha risk premium

Risk-free rate represents the return that would be earned from an investment in risk-free assets such as government bonds, while market risk premium refers to the difference between the expected market return and the risk-free rate.

Beta measures the sensitivity of a stock's returns to changes in the market and is a measure of systematic risk. Levered beta is the beta of a firm inclusive of the effects of capital structure and is calculated using the Hamada equation, as follows:

$$\beta_L = \beta_U \times [1 + (1 - T) (D/E)]$$

where: β_L = Levered beta of the subject asset

 β_U = Unlevered beta

T = Effective tax rate of the subject asset

$$D/E$$
 = Debt-to-equity ratio

The levered beta for FLI was derived from the 5-year adjusted Beta of FLI sourced from Bloomberg. The debt-to-equity ratio was derived from the target debt-to-equity ratio of FLI. The levered beta for FILRT was derived from the average unlevered beta of comparable companies and then relevered based on the target capital structure weights. The debt-to-equity ratio was the average of comparable companies.

Comparable companies were selected based on their business operations and risks. The process of filtering out the comparable companies considered in our valuation analysis and their corresponding business descriptions are presented in Appendices B and C.

To determine the unlevered betas of comparable companies, the following formula is used:

$$\beta_U = \beta \div [1 + (1 - T) (D/E)]$$

where: β_{II} = Unlevered beta of comparable company

 β = Raw beta of comparable company

T = Effective tax rate of comparable company

D/E = Debt-to-equity ratio of comparable company

Please refer to Appendix D for the details of the unlevered beta computation.

Lastly, an alpha risk premium is added to the cost of equity to account for risks specific to the company.

Dividend Discount Model ("DDM")

This method involves forecasting the subject company's future dividends over an appropriate period and discounting all the future dividends back to present value using the cost of equity.

This method is particularly appropriate when: 1) the company has a history of dividend payments, 2) the dividend policy is clear and related to the earnings of the firm, or 3) the ownership perspective is that of a minority shareholder.

Market Approach

The Market Approach references actual transactions in the equity of the company being valued or transactions in similar companies that are traded in the public markets. Third-party transactions in the equity of a company generally represent the best estimate of fair market value if they are done at arm's length.

This approach should be used as the primary basis for valuation under the following circumstances:

- The subject company has recently been sold in a transaction appropriate for consideration under the basis of value;
- The subject company or substantially similar companies are actively publicly traded; and/or
- There are frequent and/or recent observable transactions in substantially similar companies.

Under the Market Approach, the Comparable Public Companies Method and Volume Weighted Average Price Method were considered in the valuation analysis.

Comparable Public Companies Method

This method involves identifying and selecting publicly-traded companies with financial and operating characteristics similar to the subject company being valued.

Once comparable companies are identified, valuation multiples can be derived, adjusted for comparability, and then applied to the subject company's corresponding fundamental data to estimate the value of its equity.

Per IVS, this method should be used only when the subject company is sufficiently similar to the publicly traded comparable companies to allow for meaningful comparison.

We used Bloomberg and S&P Capital IQ in extracting comparable companies and their corresponding multiples.

Volume Weighted Average Price ("VWAP") Method

This method involves analysis of the value of the company's shares based on its historical trading volume and price. VWAP is commonly used for subject companies that are actively traded. Given that prices may already reflect past and forward-looking available information of the subject company, this method may provide reliable basis of market value.

Cost Approach

The Cost Approach is based on the economic principle that a buyer will pay no more for an asset than the cost to obtain an asset of equal utility, whether by purchase or by construction.

The cost approach is most commonly applied to investment or holding companies where the underlying assets and liabilities can be valued using different valuation methodologies such as the market or income approaches. This approach is generally not used for operating companies where value is mostly based on the ability of the company to generate earnings and cash flows

The method considered under Cost Approach is the Sum-of-the-Parts Method.

Sum-of-the-Parts Method (SOTP)

A valuation method that provides an indication of the value of an entire asset or enterprise by the addition of the separate values of its component parts. Values of the component parts are estimated using different valuation methodologies as deemed appropriate.

Filinvest REIT Corp. ("FILRT") is a real estate investment trust backed by FLI. Both FLI and FILRT (collectively, the "Parties") are also listed on the Philipoine Stock Exchange ("PSE").

We understand that the Parties are evaluating options available to them to increase the public float of FILRT. The Parties are looking into the possibility of a share-for-share swap, wherein FLI will offer to exchange its shares in FILRT with FLI shares held by FLI shareholders (the "Transaction").

The PSE Memorandum on Guidelines for Fairness Opinions and Valuation Reports (No. 2011-0104) requires a fairness opinion for the share for share swap. Such fairness opinion must be supported by a valuation report. Section II No. 5 of the memorandum requires a valuation on the shares to be swapped. The Securities and Exchange Commission ("SEC") also requires a valuation report for the asset to be received by the company issuing shares under SEC Memorandum Circular No. 2, Series of 2014.

Given the requirements above, we understand that the Client is looking for an independent Valuation Specialist who will conduct a valuation study of both the FLI shares and the FILRT shares; and issue a fairness opinion on whether the Transaction is fair from a financial point of view.

FTI Consulting Philippines, Inc. ("FTI Consulting") is a corporate finance advisory firm that offers a wide array of services including valuation, transaction advisory, and mergers and

2. Scope of Services and Time Frame

Fairness Opinion

 On the basis of our independent valuations of both the FLI shares and the FILRT shares, determine if the Transaction is fair from a financial point of view.

Valuation

- In support of the fairness opinion, analyze and estimate a range of market values¹ of the
 FLI shares and the FILRT shares as of the Valuation Date², with Philippine Peso
 ("PHP") as the valuation currency, using the generally accepted valuation
 methodologies, as appropriate and applicable, under the International Valuation
 Standards ("IVS"):
- Income Approach (Discounted Cash Flow Analysis): The Discounted Cash Flow Analysis is based on the premise that the value of an asset is the present value of the future earning capacity that is available for distribution to investors in the asset. It involves forecasting a cash flow stream over a forecast period, and then discounting it back to present using an appropriate discount rate.
- Market Approach (Comparable Public Company Method): The Comparable Public Company Method references publicly traded enterprises similar to the enterprise being valued.
- Market Approach (Volume-Weighted Average Price): This method involves analysis of the value of the company's shares based on its historical trading volume and price. Volume-Weighted Average Price ("VWAP") is commonly used for subject companies that are actively traded. Given that prices may already reflect past and forward-looking available information of the subject company, this method may

- Review the financial forecasts, including the underlying assumptions, of the Companies, which are understood to incorporate information known or knowable as of the Valuation Date:
- Review key contracts and agreements pertinent to the valuation such as lease contracts, loan agreements, shareholders agreements, and investment agreements, if any;
- · Review recent appraisal reports on land, property and equipment;
- Conduct site visits of the Companies' properties, if appropriate;

The Letter of Engagement and the Exhibits (collectively, the "Engagement Contract") form the entire agreement between us relating to the Services. It replaces and supersedes any previous proposals, correspondence understandings or other communications whether written or oral. The headings and titles in the Engagement Contract are included to make it easier to read but do not form part of the Engagement Contract.

1. Reports and Advice

- 1.1. Reliance on drafts You acknowledge that no reliance shall be placed on draft reports, conclusions or advice, whether oral or written, issued by us as the same may be subject to further work, revision and other factors which may mean that such drafts are substantially different from any final report or advice issued.
- 1.2. Use and purpose of advice and reports Any advice given or report issued by us is provided solely for your use and benefit and only in connection with the purpose in respect of which the Services are provided. Unless required by law or regulatory agencies or any stock exchange, you shall not provide any advice given or report issued by us to any third party (other than your advisers, auditors or consultants on a need-to-know basis) or refer to us or the Services without our prior written consent or the receipt of the signed third party release letter included in Exhibit II. In no event, regardless of whether consent has been provided, shall we assume any responsibility to any third party to which any advice or report is disclosed or otherwise made available.
- 1.3. Scope of Analysis The valuation of any financial instrument or business is a matter of informed judgment. The accompanying valuation has been prepared on the basis of information and assumptions set forth in the attached report, appendices, our underlying work papers, and these limiting conditions and assumptions.
- 1.4. Going Concern Assumption, No Undisclosed Contingencies Our analysis: (i) assumes that as of the Valuation Date the Asset will continue to operate as configured as a going concern; (ii) is based on the past and present financial condition of the Asset as of the Valuation Date; and (iii) assumes that the Asset had no undisclosed real or contingent assets or liabilities, no unusual obligations or substantial commitments, other than in the ordinary course of business, nor had any litigation pending or threatened that would have a material effect on our analysis.

1.5. Subsequent Events – The terms of our engagement are such that we have no obligation to update this report or to revise the valuation because of events and transactions occurring subsequent to the Valuation Date.

2. Information and Assistance

- 2.1 Provision of information and assistance Our performance of the Services is dependent upon you providing us with such information and assistance as we may reasonably require from time to time.
- 2.2 Punctual and accurate information You shall use reasonable skill, care and attention to ensure that all information we may reasonably require is provided on a timely basis and is accurate and complete. You shall also notify us if you subsequently learn that the information provided is incorrect or inaccurate or otherwise should not be relied upon.
- 2.3 No assurance on financial data While our work may include an analysis of financial accounting data, the Services will not include an audit, compilation or review of any kind of any financial statements or components thereof. Moreover, the circumstances of the Engagement may cause our advice to be limited in certain respects based upon, among other matters, the extent of sufficient and available data and the opportunity for supporting investigations in the time period. The Client will be responsible for any and all financial information they provide to us during the course of this Engagement, and we will not examine or compile any such financial information. Accordingly, as part of this Engagement, we will not express any opinion or other form of assurance on the financial statements or financial components of the Asset.
- 2.4 Prospective financial information In the event the Services involve prospective financial information, our work will not constitute an examination, compilation or apply agreed-upon procedures in accordance with standards established by the Philippine Institute of Certified Public Accountants, and we will express no assurance of any kind on such information. There will usually be differences between estimated and actual results, because events and circumstances frequently do not occur as expected, and those differences may be material. We will take no responsibility for the achievability of the expected results anticipated by the management of the Client.
- 2.5 Legal Matters We assume no responsibility for legal matters including interpretations of either the law or contracts. We have made no investigation of legal title and have assumed that owner(s) claim(s) to property are valid. We have given no consideration to liens or encumbrances except as specifically stated. We assumed that all required licenses, permits, etc. are in full force and effect. We assume no responsibility for the acceptability of the valuation approaches used in our report as legal evidence in any particular court or jurisdiction. The suitability of our report and

opinion for any legal forum is a matter for the Client and the Client's legal advisor to determine

- 2.6 Verification of Legal Description or Title No investigation of legal description or title to the properties will be made and we will assume that your claim to the properties are valid. No consideration will be given to liens or encumbrances which may be against the property, except as specifically stated as part of the financial statements you provide to us as part of this engagement. Full compliance with all applicable national, local government, local zoning, environmental and similar laws and regulations is assumed, unless otherwise stated and responsible ownership and competent property management are assumed.
- 2.7 Verification of Hazardous Conditions We will not investigate the extent of any hazardous substances that may exist, as we are not qualified to test for such substances or conditions. If the presence of such substances, such as asbestos, urea formaldehyde foam insulation or other hazardous substances or environmental conditions may affect the value of the property, the value will be estimated predicated on the assumption that there is no such condition on or in the property or in such proximity thereto that it would cause a loss in value. No responsibility will be assumed for any such conditions, or for any expertise or engineering knowledge required to discover them.
- 2.8 Condition of Property We assume no liability whatsoever with respect to the condition of the subject property or for hidden or unapparent conditions, if any, of the subject property, subsoil or structures, and further assume no liability or responsibility whatsoever with respect to the correction of any defects which may now exist or which may develop in the future. Equipment components considered, if any, were assumed to be adequate for the needs of the property's improvements, and in good working condition, unless otherwise reported.
- 2.9 Zoning It was assumed that all public and private zoning and use restrictions and regulations had been complied with, unless non-conformity was stated, defined and considered in the report.

3. Additional Services

3.1 Your responsibility for other parties – You shall be solely responsible for the work and fees of any other party engaged by you to participate in the Engagement regardless of whether such party was introduced to you by us. Except as provided in the Letter of Engagement, we shall not be responsible for providing or reviewing specialist advice or services including legal, regulatory, accounting or taxation matters. Further, we acknowledge that we are not authorized to engage any third party under our Engagement Contract without your written authorization.

- 4.1 Restrictions on confidential information All parties agree that any confidential information received from the other party shall only be used for the purposes of providing or receiving Services under this or any other contract between us. Except as provided below, neither party will disclose the other party's confidential information to any third party without the other party's consent. Confidential information shall not include information that:
 - 4.1.1 is or becomes generally available to the public other than as a result of a breach of an obligation under this clause:

 - 4.1.3 is or has been independently developed by the recipient.
- 4.2 Disclosing confidential information Notwithstanding Clauses 1.2 and 4.1 above, either party will be entitled to disclose confidential information of the other to a third party to the extent that this is required by valid legal process provided that (and without breaching any legal or regulatory requirement) where reasonably practicable not less than 2 business days notice in writing is first given to the other party.
- 4.3 Citation of engagement Without prejudice to Clause 4.1 and Clause 4.2 above, we may cite generally the performance of the Services to our clients and prospective clients as an indication of our experience, unless we both specifically agree otherwise in writing.
- 4.4 Internal quality reviews Notwithstanding the above, we may disclose any information referred to in this Clause 4 to any other FTI entity or use it for internal quality reviews.
- 4.5 Maintenance of workpapers Notwithstanding the above, we may keep one archival set of our working papers from the Engagement, including working papers containing or reflecting confidential information, in accordance with our professional standards and internal policies.

PUBLIC ANNOUNCEMENT OF THE TERMS & CONDITIONS OF THE VOLUNTARY TENDER OFFER TO THE SHAREHOLDERS OF FILINVEST LAND, INC.

Filinvest Land, Inc. ("FLI") submitted on 2 October 2024 a Tender Offer Report (SEC Form 19-1) with the Securities and Exchange Commission (the "Commission") and The Philippine Stock Exchange, Inc. ("PSE" or the "Exchange") pursuant to Rule 19 of the Securities Regulation Code in connection with its intention to reacquire up to One Billion Eight Hundred Sixty-Six Million (1,866,000,000) common shares of FLI (the "Tender Offer").

The Tender Offer aims to improve the financial metrics of FLI while providing an opportunity for existing public shareholders to realize their investment at a premium to the current trading price of the outstanding common shares. FLI stresses that the Tender Offer is not being conducted for delisting purposes.

In the event that the total number of shares tendered in the Tender Offer exceeds the maximum number of shares to be purchased, FLI shall accept and pay the Tender Shares on a pro rata basis, disregarding fractions, according to the number of shares tendered by each Tendering Shareholder. Following the Tender Offer, the public shareholdings of FLI will decrease as the shares tendered will form part of the treasury shares of FLI. Assuming the full Tender Shares are tendered and accepted, the resulting treasury shares of FLI will be Two Billion Eighty-Six Million Nine Hundred Forty-Nine Thousand (2,086,949,000) treasury shares. The total outstanding shares will remain compliant with the minimum public ownership requirement applicable to FLI, thereby maintaining compliance with existing listing rules.

Suweco warns of rotational brownouts in Catanduanes

By LENIE LECTURA Dellectura

UNWEST Water and Electric Co. Inc. (Suweco) warned of rotational brownouts in Catanduanes due to the National Power Corp.'s (NPC) unpaid dues amounting to P285 million.

Suweco, which was founded by Legazpi-based entrepreneur Elizaldy Co., is a major power player in Catanduanes, Sorsogon, Romblon and Antique. It

operates several mini-hydro and diesel power plants. It decided to scale down its operations starting October 5 because of the state firm's unilateral deferment of payments related to Suweco's subsidy billings, some of which have been overdue since May 2024.

The company said it has been "promptly sending" its subsidy billings to NPC but despite being duly received by them, the submissions are partially unprocessed and unpaid as of last Friday.

Additionally, an attempt to transmit the subsidy billing for the month of August has been made but was unjustifiably refused by the NPC-Small Power Utilities Group (SPUG), bringing to a cumulative outstanding amount due to Suweco to a total of P285,215,641.

SPUG areas are those that are not connected to the national grid and therefore depend on dieselpower sets.

The refusal of NPC to settle its obligation to SU-WECO stems from the decision of the Energy Regulatory Commission (ERC) under Case No. 2023-123 RC dated January 23, 2024, dismissing the application of First Catanduanes Electric Cooperative Inc. (Ficelco)

and Suweco for the approval of the 2nd Amendment to their Electricity Supply Agreement (ESA). Suweco timely filed its motion for reconsideration before the ERC on March 12, 2024.

SUWECO has repeatedly reiterated to NPC that its motion is still pending for resolution before the ERC, hence its decision is not yet deemed final and executory. Moreover, under the terms of the Universal Charge for Missionary Electrification (UCME) agreement, deductions from billing collections are not permitted.

NPC has yet to respond to Suweco, giving the latter no choice but to implement a scale down of its operational schedule through rotational brownouts averaging up to three hours per day.

We are hoping for the understanding of the thousands of member-consumers of Ficelco who will be directly affected by the brownouts. We have done everything in our control to prevent this, but unfortunately, NPC has taken a position adverse to the member-consumers of Ficelco by its refusal to honorits obligations," said Floro P. Barrameda, Business Unit Head of Suweco.

"While Suweco remains committed and steadfast in providing reliable power to the residents of Catanduanes at a reasonable cost, the lack of subsidy settlements by NPC has resulted to operational constraints that led to these adjustments as we are not comfortable in collecting the full rate of electricity (without any subsidy) or the True Cost Generation Rate to the member-consumers for Ficelco since the rate will be higher and burdensome on them.

East were seen as a downside risk to the positive market sentiment. Japhet Louis O. Tantiangco, senior research analyst at

Philstocks Financials Inc., said an escalation of tensions are expected to raise oil prices and cause negative spillovers to the rest of the global economy. "Hence, it is expected to weigh on sentiment," he said.

"On a positive note, the below expected inflation print of the Philippines for September is seen to boost market sentiment due to its positive implications on the local economy." "The low inflation figure could mean stronger household consumption which would benefit our overall economic

growth given its significant contribution. The low inflation also strengthens the case for the continuation of the BSP's. [Bangko Sentral ng Pilipinas] monetary policy easing." Investors may also watch out for upcoming government data including the labor force survey, foreign trade, and

foreign investments data for clues on the local economy, he said. With favorable inflation dynamics, Broker 2TradeAsia said speculation is high for what could be a 50-basis

point rate cut from the BSP in as early as this month during the October 17 policy meeting of the Monetary Board. "Recall that consensus initially penciled two cuts

or 25 basis points each for the October and December meetings; expectations have shifted since the Fed cut big in September, and central banks globally are in a cat-and-mouse game to get ahead of the curve," it

*Despite uncertainties as to the magnitude, the direction towards looser policy remains strong up until 2025-

2026, and positioning towards sectors that will benefit from the constructive impact of lower rates is reiterated, with a more immediate focus to exporters, cyclicals, and banking, amid the current forex advantage and sharply improved consumer confidence heading well into fourth quarter."

Chartwise, the market may continue to test the 7,400 level. If it holds its ground at the said line this will be considered as its support while its next resistance is seen at 7,700. Tantiangco said.

STOCK PICKS

MAYBANK Securities maintained its buy rating on Manila Electric Co. (Meralco) as the stock was the favorable choice in the current low-price environment, benefiting from its focus on distribution alongside limited spot exposure through MGen.

"Electricity spot prices in the Philippines fell to a notable low of P3.86 per kWh in September (-25 percent year-on-year), We expect WESM [Wholesale Electricity Spot Marketi prices to continue declining on a YoY basis for this year, primarily driven by higher supply margins and reduced fuel costs. When spot prices are low, we generally prefer distribution over generation."

Meralco's shares were last traded at P464 apiece.

Meanwhile, the broker also gave a buy rating on PLDT Inc. and increased its target price to P2,070 per share as it liked the stock given" the more rational competitive environment in the mobile segment".

"Meanwhile, the broadband segment has normalized after seeing weakness and high churn last year. The main catalysts for PLDT would be the profitability of Maya, expansion of data centers and a stable telco business," it said.

PLDT shares closed last week at P1.560 apiece. VG Cabuaa

'Policy rate easing to boost corporate earnings, PSEi'

ROKER Unicapital Securities Inc. has raised its forecast for the benchmark Philippine Stock Exchange index (PSE) due to the anticipated

Exchange index (PSEi) due to the anticipated cuts in interest rates.

The broker said it expects PSEi to end the year at 7,600 points, higher than its previous projection of 7,000 points.

of 7,000 points, higher than its previous projection of 7,000 points.

We expect further policy rate easing to boost corporate earnings through a lower cost of capital and increased consumer spending. Based on our sensitivity analysis, our bear and bull case scenarios range from 7,000 to 8,000, based on 12 times and 13.7 times price per earnings ratio [P/E], respectively, both of which are below the past five year average. For the year, it said the target was based on a 13 times P/E and al? Percente arraings per share (EPS) growth in 2024, which is higher than its previous estimate of 11 percent.

For next year, Unicapital said the PSE icould reach 8,400 points, based on a 13 times P/E and to and an anticipated 10 percent growth in EPS for 2025.

"It reflects the current market environment and investor sentiment. Our EPS growth estimate stems

from earnings forecasts for the index constituents. Further rate cuts by the central bank are expected to support corporate profitability, potentially driving growth in key sectors such as conglomerates, consumer, energy, REITs and property, it said.

That be bear case, we forecast the PSEI could celline to 8,000, based on a more cautious 12.5 times PTE, assuming headwinds such as slower-than-expected economic recovery or geopolitical risks. Conversely, in a more optimistic bull case, the index could reach 9,000, supported by a 14 times PTE, which would still be below the 5-year average, leaving room for further upside should investor sentiment improve. Unicapital said it remains optimistic and that is is poised to 'continue making impactful contributions' to the Philippine conomy.

"At Unicapital, we take pride in being a dedicated partner to the Philippine conomy.

"At Unicapital, we take pride in being a dedicated function integral to business growth and expansion—despite being an independent financial services provider—is a testament to our commitment in empowering businesses and driving sustainable economic growth, 'Jaime Martires, Unicapital Group president and CEO, said.

DepEd taps experts for better Pisa scores

By Dempsey Reyes @dempseyreyesINQ

The Department of Education (DepEd) has formed a task force that will supervise the improvement of Filipino students' performance in the upcoming Programme for International Student Assessment (Pisa) exams next year, Education Secretary Sonny Angara disclosed on Sunday.

The Pisa exams, which measures the skills of 15-yearold students in mathematics, science and reading, caused great embarrassment to the government.

2022, the Philippines ranked sixth from the last in mathematics with an average score of 355.

In science, it ranked third from last in science with an average score of 356 and sixth from last in reading with an

average score of 347. The Pisa exam was meant to evaluate educational systems and not the scholastic abilities of students. However, the last results last year spawned severe criticism of education officials.

Angara did not say when the task force was created, but he said the DepEd leadership has been receiving weekly updates from the task force on the preparations for the Pisa exams in March 2025.

Sonny Angara - SENATE PRIB

Of the 1.9 million students In the last Pisa testing in from both public and private. schools nationwide, only 7,000 students will take the Pisa exams, based on Pisa's own choosing, from 200 schools, Angara explained.

Test preparations

There will be three stages for the Pisa exams' preparation and planning, he added.

"What we did, as part of our preparation, was to get Pisa-type exams [for the students' review]. Because what's challenging in the Pisa exams, unlike the Bar exams where you can see the previous exams, it is much more secretive since apparently, some questions are being asked again [in the exams]," Angara said in a

radio interview. He noted that the DepEd has

tapped some experts who can formulate "new Pisa-type questions" to prepare students.

According to Angara, it was the first time for some students to even use a computer and had difficulties using it.

"So, we are trying to prepare them in the exam techniques so they won't feel any pressure once they finally take the Pisa exams," he said. Angara also said they asked

some of the "successful" students in the Pisa exams-especially coming from Metro Manila, Central Luzon and Cordillera-to share their best practices for the test.

The schools where the exams will be held will be known by January and the 7,000 participating students by February, according to Angara.

"Once we find out the schools, we will be providing them with their needs for the exams such as computers and we will form special sections and classes for them to prepare, as well as for the students to have a tutoring program for the Pisa," he explained.

"For the 7,000 students who will participate, we will also provide each student with what they need. What food they need and the necessary support they will need for the exams. I mean, this is like a championship game, we have to have them prepared," Angara added. INQ

Senatorial bets now number 127

By Dexter Cabalza

@dexcabalzaINQ

The Commission on Elections (Comelec) recorded the highest turnout of aspirants for national posts for next year's elections on Monday, the second to the last day for the filing of certificates of candidacy (COCs).

Forty-nine personalities submitted their COCs for senator, while 50 party list hopefuls filed their certificates of nomination and certificates of acceptance of nomination (Con-Can). This brought the total number of senatorial aspirants to 127, while the number of party list groups joining the race ballooned to 137.

There was a fiesta-like atmosphere at the Quirino Grandstand where hundreds of supporters had gathered before sending off their respective candidates to the nearby Tent City at Manila Hotel for the filing of COCs. Some were carrying banners and posters; others had a drum and lyre band or speakers. blasting loud music.

Due to the sheer number of COC filers, the Comelec extended its working hours from 5 p.m. to 6 p.m. to accommodate them.

Among the more prominent politicians spotted at the venue were three senatorial aspirants backed by President Marcos: resigned Interior Secretary Benhur Abalos, reelectionist Sen. Ramon "Bong" Revilla Jr. and boxing champ Manny Pacquiao, who wanted to return to the Senate after losing in the 2022 Chavit Singson, who arrived in presidential race.

mayor of Mandaluyong City, to heading the Metropolitan Manila Development Authority at the height of the pandemic, and promoting good governance in the Department of the Interior and Local Government.

Change of heart

While Revilla refused to answer questions from the media, Pacquiao said he would continue his advocacy to fight corruption in government. But from vowing to go after the ill-gotten wealth of the Marcos family in 2022, he now defended the dictator's family.

"We always point to the Marcos family when it comes to corruption issues. But have we not learned that during the time of President Marcos Sr. our country was No. 1 in terms of economy?" he asked. His claim, however, has long been debunked. By the end of Marcos Sr.'s regime, the Philippine economy suffered its worst postwar recession, becoming known as the "sick man of Asia."

Pacquiao's wife, former Sarangani Vice Gov. Jinkee Pacquiao was aiming for a seat in the House of Representatives as the second nominee of the Maharlikang Pilipino sa Bagong Lipunan party list.

Superstar Nora Aunor also wanted to enter politics by being the second nominee of People's Champ party list, which is also affiliated with the

Singson said that win or lose, he would push for the modernization of public and private transportation by mak ing electric vehicles affordable to Filipinos.

Former military men Grin. go Honasan and Ariel Querubin and former Defense Secretary Delfin Lorenzana also filed their COCs for senators. Honasan and Querubin said that among their priorities were to beef up hational security and ensure that Filipinos were not harassed in the West Philippine Sea.

Diokno also running

Liberal Party-allied Akbayan party list also filed its Con-Can, fielding human rights lawyer Chel Diokno as its first nominee.

"Rather than advancing the interests of their own families, the people need members of the House of Representatives who will fight for the rights of the ordinary Filipino people," Diokno said.

Bam Aquino, wearing pink, also wanted to return to the Senate under the banner of Katipunan ng Nagkakaisang Pilipino, which he currently chairs. He was accompanied by Baguio City Mayor Benjamin Magalong.

Should he make a comeback in the Senate, he said he would push to reform the education sector to ensure jobs for graduates.

1. ABOUT THE FLI TENDER OFFER PROCESS

1.1. What is a tender offer?

A tender offer is a public bid for stockholders to sell their stock. Typically, a tender offer is commenced when the company making the offer – the bidder – places a summary advertisement, or "tombstone," in a major national newspaper and the offer to purchase is printed and mailed to the target company's stockholders. A tender offer must comply with the rules and regulations of the SEC, which include certain disclosure requirements, minimum offering periods, withdrawal rights, manner of publication, and other requirements.

In this tender offer, FLI is offering to buy back its own shares from existing public shareholders in exchange for FILRT shares owned by FLI.

1.2. The FLI Offer – Capped Voluntary Tender Offer

FLI's tender offer is a Capped Voluntary Tender Offer (the "**Tender Offer**") of up to One Billion Eight Hundred Sixty-Six Million (1,866,000,000) common shares, equivalent to Seven and 69/100 (7.69%) ownership in FLI (the "**Tender Shares**"). The currency of payment for the buyback of FLI shares will be shares owned by FLI in FILRT at an exchange ratio of 0.32 FILRT shares for every 1.00 Tender Share ("**FILRT Shares**" or the "**Consideration Shares**").

1.3. What is the basis of the exchange ratio?

The exchange ratio was based on the respective crossing prices of the Consideration Shares and Tender Shares determined as follows: for the Consideration Shares, by computing the ten (10)-day volume weighted average price ending 23 September 2024 ("VWAP"); and for the Tender Shares, by computing the VWAP plus a premium in the amount of Php0.36 per share. The crossing prices are Php1.00 per share for the Tender Shares and Php3.11 per share for the Consideration Shares.

The prices of securities are subject to fluctuations due to, among other factors, market conditions, economic factors, and investor sentiment. Past performance is not indicative of future results, and there is no guarantee that FILRT will achieve its objectives or maintain its value. FLI shareholders should carefully consider their risk tolerance before participating in this Tender Offer.

1.4. What happens if the conversion results in fractional FILRT Shares?

No fractional Consideration Share will be issued in exchange for Tender Shares. If the conversion based on the exchange ratio results in fractional shares, the FILRT Shares shall be rounded down to the nearest whole share. No cash or other consideration will be paid for any fractional shares resulting from such rounding down. Holders will only receive consideration for the whole shares accepted, and any fractional share interests will be disregarded and will not be compensated.

Please see Schedule 1 for an illustration.

1.5. What happens if the number of Tender Shares exceeds the cap?

If the total number of shares tendered in the Tender Offer exceeds the maximum number of shares to be purchased, FLI shall accept and pay the Tender Shares on a pro rata basis, disregarding fractions, according to the number of Tender Shares by each Tendering Shareholder during the Tender Offer Period. Any portion of the FLI shares tendered but not accepted by FLI shall be returned to the Tendering Shareholder through its designated PCD Participant.

Please see Schedule 1 for an illustration.

1.6. Will there be cash compensation in case of fractional shares?

No cash or other consideration will be paid for any fractional shares resulting from such rounding down. Holders will only receive the consideration for the whole shares accepted, and any fractional share interests will be disregarded and will not be compensated.

1.7. What is FLI's purpose for making the Tender Offer in exchange for FILRT Shares?

FLI is confident about the future growth prospects of the Company and believes that the current stock price is below its true intrinsic value. The transaction is an opportunity for the Company to buy back the shares at current price levels with the possibility of using the same for future capital raising exercise at a more favorable price. The Tender Offer is also expected to improve FLI's profitability metrics such as Earnings per Share. On the other hand, offering FILRT Shares in exchange for FLI shares of Tendering Shareholders increases the public float of FILRT. This increase in public float creates room for FLI's future asset infusions into FILRT to grow the same.

1.8. What potential benefits can existing FLI shareholders enjoy by participating in this Tender Offer

Existing FLI shareholders who participate in this tender offer may enjoy the following benefits:

- Premium Exit Opportunity: Divest their holdings in FLI at a premium to the current market price, potentially
 improving their returns compared to selling on the open market or waiting for the market price to reach the
 same level as the Tender Offer price.
- Stable Dividend Yield: Replace their FLI shares with FILRT Shares, which provide a more consistent and reliable dividend income stream, as Real Estate Investment Trusts ("REITs") are required to distribute at least ninety percent (90%) of their distributable income to shareholders. The dividend yield may further improve through future asset infusions by FLI into FILRT.
- Enhanced Liquidity: Replace their FLI shares with FILRT Shares which, historically, traded at relatively higher
 volumes compared to FLI shares. Similar to any other shares being traded, FILRT shares are also exposed to
 fluctuating prices as a result of interest rate volatility and developments in the local and international capital
 markets, to which investors must always make a thorough assessment on prior to making any investment
 decision.
- Increased Opportunity to Reinvest. The quarterly dividend payments in FILRT allow for increased opportunity to reinvest any dividends received.

1.10. What is the basis of the Tender Offer price?

FLI has engaged FTI Consulting Philippines, Inc. ("FTI") to issue a valuation and fairness opinion to determine the reasonable and fair range of prices for both FLI and FILRT shares and the exchange ratio between FLI and FILRT shares. The Tender Offer price and the exchange ratio is based on said fairness opinion.

FLI (PHP / share)		FILRT (PHP / share)		Fair Range of Exchange Ratios of FLI shares per FILRT share		Proposed Exchange Ratio of FLI shares per FILRT share
Low Est.	High Est.	Low Est.	High Est.	Low Est.	High Est.	
0.85	1.36	2.55	3.96	1.87	4.65	3.11 1

The tender offer price does not include customary selling charges for tendering the FLI shares, as set out in Item 1.17 below, which shall be for the account of the Tendering Shareholder.

The valuation report and fairness opinion dated 24 September 2024 can be accessed through the Investor Relations ("IR") page of FLI at https://filinvestland.com/investor-relations/tender-offer.

1.11. What happens if I do not participate in the Tender Offer?

As this is a voluntary Tender Offer, and there is currently no intention to delist, non-participating FLI shareholders will remain as shareholders of FLI and still be able to trade FLI shares in the PSE.

However, since the Tender Offer primarily targets public shareholders and Tender Shares that will be accepted by FLI will form part of FLI's treasury shares, the ownership stake in FLI of public FLI shareholders who do not participate in the Tender Offer will increase.

1.12. If I expressed interest to participate but later on decide not to proceed, can I still withdraw my application to tender?

Applications to tender ("Application to Tender") may still be withdrawn at any time during the Tender Offer Period but not later than 12:00 p.m. on 27 November 2024. To withdraw an Application to Tender, a written request must be submitted to the Tender Offer Agent. The receiving copy of the Application to Tender signed by the Tender Offer Agent must also be surrendered to the Tender Offer Agent.

The FLI shares tendered and subsequently withdrawn shall be returned to the designated PCD Participant within ten (10) trading days from the end of the Tender Offer Period. All costs arising from the withdrawal of the Application to Tender shall be borne by the Tendering Shareholder making the withdrawal.

1.13. If I do not respond to the Tender Offer, can FLI still buy back my shares through my broker?

As FLI does not intend to delist from the PSE, only shareholders of FLI who, through their designated PCD Participant, complete the submission of the Application to Tender documents will be considered as "tendering" or "participating" shareholders. If the Tendering Shareholder, or the designated PCD Participant, does not respond to the Tender Offer, the Tendering Shareholder will remain to be a shareholder of FLI and continue to be able to trade their FLI shares in the PSE.

1.14. If FLI does not accept/buy back some of the tendered shares (including mine), what will happen to my FLI shares?

BPI Securities, as the Tender Offer Agent, will return all FLI shares, to the extent not accepted by FLI for the Tender Offer, to the respective Tendering Shareholders through their designated PCD Participant. Such returned shares will continue to be beneficially owned by the relevant shareholder and be available for trading on the PSE

¹ 3.11 FLI shares for every 1 FILRT share translates to an exchange ratio of approximately 0.32 FILRT shares for every 1 FLI share.

All applications shall be evidenced by the Application to Tender, duly executed by an authorized signatory of the applicant and the corresponding payment for the broker's selling commission (and applicable fees and taxes thereon) on the FLI shares tendered. The duly executed Application to Tender and required documents should be submitted during the Tender Offer Period to the Tender Offer Agent. Tendering Shareholders of certificated shares that are located outside the Philippines must coordinate with their designated PCD Participant for the procedures that they need to undertake such that the relevant Application to Tender, the accompanying documents and payment are received by the Tender Offer Agent on or before the end of the Tender Offer Period.

For further instructions, please refer to the following:

3.1.1 For holders of scripless FLI shares:

Tendering Shareholders shall advise their respective PCD Participant of their intention to tender and comply with such PCD Participant's internal procedures and requirements to participate in the Tender Offer.

The PCD Participants shall then accomplish the following:

Step 1:	Accomplish the Application to Tender on behalf of its clients who are Tendering Shareholders and who have expressed interest in participating in the Tender Offer, and submit the Application to Tender along with the complete Supporting Documents (as defined below), to the Tender Offer Agent on or before 12:00 p.m. on 27 November 2024. If the PCD Participant is not an Eligible TP (and does not intend to become an Eligible TP), require its client(s) who is(are) Tendering Shareholder(s) to nominate an Eligible TP to whom the Consideration Shares may be delivered for lodgment. Attach the duly accomplished Schedule of Tender Shares for Delivery to Nominated Eligible TPs (in the
	form of Annex F of the SEC Form 19-1) to the Application to Tender upon submission of the same to the Tender Offer Agent.
Step 2:	Submit the Letter to the Tender Offer Agent (in the form of Annex A to the Instructions to Participating Brokers, which is Exhibit G of the SEC Form 19-1) and proof of payment of the customary selling charges for the Tender Shares not later than 12:00 p.m. on 27 November 2024.

Step 3:	Electronically transfer the scripless FLI shares to be tendered via EQ Trade to the Tender Offer Agent at the same time that the Application to Tender is delivered to the Tender Offer Agent.
	FLI shall pay for the one-time EQ Trade fees (both in and out) per broker ¹ . Any subsequent transfers or returns via EQ Trade shall be for the account of broker/tendering shareholder (if passed on by broker to their tendering shareholder clients).
Step 4:	Remit to the Tender Offer Agent the applicable sell-side fees (other than the brokerage commission) shouldered by the Tendering Shareholder as set out under Item 1.17 above at the same time that the Application to Tender is delivered to the Tender Offer Agent and the scripless Tendered Shares are electronically transferred to the Tender Offer Agent.
Step 5:	If the PCD Participant is an Eligible TP, request for creation of an NoCD account where the scripless shares will be credited for each of their Tendering Shareholder clients with the PDTC. PDTC shall assign a unique NoCD ID for every account created.

3.1.2 For holders of certificated FLI shares:

Tendering shareholders shall convert their certificated shares to scripless form through lodgment with a designated PCD Participant who is an Eligible TP. To lodge the stock certificates, the tendering shareholder must:

Step 1:	Contact Stock Transfer Service, Inc. (the "Stock Transfer Agent" or "STSI") to check whether or not there is a need to update the stockholder's records with STSI. If the stockholders record with the Stock Transfer Agent needs updating, submit the required documents to STSI to update said record.
Step 2:	Deliver the original FLI stock certificate(s), duly endorsed, to the designated PCD Participant that is an Eligible TP for lodgment no later than five (5) trading days prior to the end of the Tender Offer Period or on 20 November 2024. Tendering Shareholder must have an existing securities account with said PCD Participant or must open a securities account with the same for the lodgment of the Tender Shares in certificated form.
	Each PCD Participant will have varying internal policies and procedures for opening a securities account and a NoCD account. Tendering Shareholders will have to comply with such account opening policies and procedures of the designated PCD Participant.
Step 3:	Inform such designated PCD Participant that is an Eligible TP of intention to participate in the Tender Offer and comply with such PCD Participant's internal procedures and requirements to participate in the Tender Offer (including requirements related to the opening of a NoCD account with the PDTC).
Step 4:	Upon completion of lodgment, the relevant PCD Participant shall follow the same set of procedures required of it as laid out in the section "For Holders of Scripless Shares."

Those who do not have a designated PCD Participant may designate BPI Securities or any other PCD Participant that is an Eligible TP as their designated PCD Participant and open an account with BPI Securities or such PCD Participant that is an Eligible TP for the lodgment of their certificated shares, including a NoCD account for the delivery of the Consideration Shares.

For those who wish to designated BPI Securities as their PCD Participant, BPI Securities' requirements are set forth in 1.19 above.

A list of Eligible TPs can be found in the following link: https://www.pse.com.ph/directory/#tp2.

 $BPI\ Securities\ or\ the\ designated\ PCD\ Participants\ that\ are\ Eligible\ TPs\ must\ then\ do\ the\ following:$

	of their Tendering Shareholder clients with the PDTC. PDTC shall assign a unique NoCD

Step 2:	Request for lodgment of the shares with PDTC no later than three (3) trading days before the end of the Tender Offer Period or 22 November 2024. The Tender Shares must be received by the Tender Offer Agent in scripless form on or before 12:00 p.m. on 27 November 2024. Lodgment fees shall be for the account of the Tendering Shareholder.
Step 3:	Once the shares are converted into scripless form, PCD Participants must follow the instructions to PCD Participants under "For Holders of Scripless Shares" above to the extent not yet performed.

PDTC primarily deals with the PCD Participants and does not accept any NoCD creation requests from shareholders. Tendering shareholders who will not obtain a NoCD account will not be eligible to participate in the Tender Offer. Refer to Item 3.1 above for detailed steps on the Application process.
